

Remote video evidence downloading that does not use a PC

THE NEW LIBERATOR KEYBOARD FROM TECTON

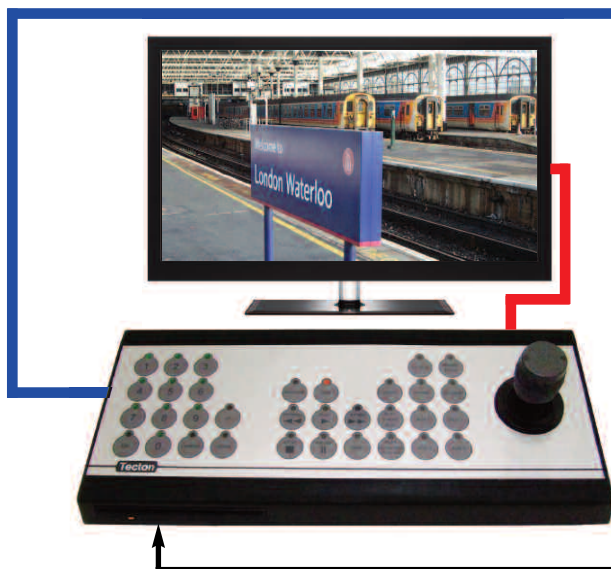

Our new keyboard generates its own video. It has only 2 connections, network and power. Playback and view live from any camera on the system. Download video evidence to CD/DVD, complete with playback software.

CAT 5 CABLE

EQUIPMENT ROOM

CAT 5 CABLE

You can also have multiple keyboards on your system and control several other monitors. Camera control is also supported.

CD/DVD can be played back from the built in DVD drive. Confirm you have downloaded the right footage!

CUSTOM TRIMAC

Burn DVD/CD here!
