

IFSEC

conference

11–13 May 2009 - NEC Birmingham

Maximising protection in uncertain times

**Book before
27 March 2009
and SAVE £25
per module!**

Hear from a distinguished speaker line-up including:

**DCI Chris Phillips, Head
National Counter Terrorism
Security Office**

**Commander Sue Akers
Head of Organised Crime and
Criminal Networks
Specialist Crime Directorate**

**James Crask, Resilience Policy Manager
Civil Contingencies Secretariat
Cabinet Office**

**Steve Fowler, Chief Executive
The Institute of Risk Management**

**Mark Whittle, National Security Manager
McDonald's**

**Dan Hooton, Group Head of Security
Prudential PLC**

- **Day 1** – Global, National and Local Protection
- **Day 2** – Corporate Security Management
- **Day 3** – Technological Innovation in Practice

- **Tailor your agenda** over three themed conference days
- The opportunity to attend **nine modules**

IFSEC conference

11–13 May 2009 - NEC Birmingham

IFSEC is proud to present the **IFSEC Conference 2009: Maximising protection in uncertain times**

Maximising protection in uncertain times

In its second year, the IFSEC Conference has been designed to help security professionals maintain control in today's ever-changing world. In a climate of uncertainty, security must not only be fluid in reaction but also proactive in its strategy to combat terrorism, beat new forms of e-crime and manage risk in a turbulent economy.

Timely solutions to all your security challenges

With a programme formulated to tackle current risks and emerging threats, the IFSEC Conference will give you up-to-the minute solutions and recession busting ideas.

Who attends?

The **IFSEC Conference 2009** is a must-attend event for all security professionals including police, government bodies, chief security officers and security consultants.

A truly global event

Last year, 45% of delegates were from outside the UK. This year will be no different and the IFSEC Conference 2009 is your unique opportunity to network and learn from international best practice.

Conference Format

The **IFSEC Conference 2009** is set out in a unique modular format, allowing delegates to book the modules of interest specific to them. As indicated by the pricing system, delegates can attend multiple modules with discount prices. Each module consists of three 30 minute presentations followed by a 25 minute interactive panel debate.

DAY 1

Monday 11 May 2009

GLOBAL, NATIONAL AND LOCAL PROTECTION

Chair for Day 1: **David Kidd**, Regional Security Officer, **Embassy of the United States of America**

MODULE A1 Global Terror

With the increased threat of terrorism, communities and corporations must all be prepared for the unexpected. Hear unique insights into the motivation behind past attacks; analyse the latest security intelligence; and utilise the latest thinking to improve front-line security plans.

MODULE A2 Critical National Infrastructure

National readiness for major security alerts remains at an all time high. This module will look at three vital areas of CNI in the UK and demonstrate how their security strategies and planning procedures can be used as a benchmark for others to follow.

MODULE A3 Crisis Management

The uncertainty and risks in today's economic climate are at an all time high. You cannot afford to leave your organisation vulnerable to high-cost incidents. This module will give you the tools you need to build and maintain your resilience and business continuity programmes.

A1 Global Terror

09:00
to
11:00

- 09:00 **Opening remarks from the Chair**
- 09:05 **Exploring emerging threats on an international scale**
- Reviewing recent events and analysing what this means on a global, national and local level
 - Examining the background and motivation of activists in order to predict potential scenarios in the future
 - Combating threats: Changing to a proactive mentality across governments and national protection forces
- Hagai Segal**, Lecturer/Professor
New York University in London, Consultant and Advisor on Terrorism and Middle-Eastern Affairs
- 09:35 **Gaining the latest intelligence to protect your organisation both at home and abroad**
- Choosing respected sources of security intelligence
 - Creating partnerships between sectors and industries for improved communication
 - Using security intelligence to influence your commercial strategy: What countries should you be working with or operating in?
- Mark Stollery**, Executive Director
Security Information Service for Business Overseas
- 10:05 **Handling the increasing threat of terrorist behaviour - understanding who and why, and how to prevent it**
- Exploring examples of terrorist behaviour to better understand the optimum measures to take
 - Learning how to spot the signs and act early
 - Developing procedures and implementing the best course of action
- DCI Chris Phillips**, Head
National Counter Terrorism Security Office
- 10:35 **Panel discussion and debate**
- 11:00 **Closing remarks**
- Refreshments and networking

A2 Critical National Infrastructure

11:30
to
13:30

- 11:30 **Opening remarks from the Chair**
- 11:35 **Tackling serious and organised crime affecting London Heathrow Airport: Employing new strategies through Operation Grafton**
- Creating partnerships between policing units and trade experts to establish a tactical security strategy
 - Developing intelligence into proactive operations to combat serious organised crime
 - Using the strategy as a blue print for other operations and sectors
- Commander Sue Akers**
Head of Organised Crime and Criminal Networks
Specialist Crime Directorate
- CASE STUDY**
- 12:05 **Preparing the National Health Service for large-scale crisis**
- Examining the planning by local healthcare authorities around disaster scenarios
 - Preparing measures to ensure staff and patient safety during an emergency
 - Providing a safe working environment and protecting patients from further harm
- Nick van der Bijl**, Chairman
National Association for Healthcare Security
- 12:35 **Developing a new era of national security in the UK: Utilising London 2012 as a catalyst for change**
- Establishing effective vetting processes for a large number of contractors
 - Planning security measures for such a large influx of people
 - Driving security standards across the network of organisations, industries and national infrastructure involved in London 2012
- Stephen Cooper**, Head of Security
Olympic Delivery Authority
- 13:05 **Panel discussion and debate**
- 13:30 **Closing remarks**
- Break to allow for Lunch

A3 Crisis Management

14:30
to
16:30

- 14:30 **Opening remarks from the Chair**
- 14:35 **Establishing a resilience programme for business continuity: Reducing the cost impact of the unexpected**
- The Civil Contingencies Secretariat's strategy for business continuity management
 - The National Risk Register and planning assumptions
 - The enhancement of the Civil Contingencies Act 2004 Making information available to business and providing assistance to planning
- James Crask**, Resilience Policy Manager
Civil Contingencies Secretariat, **Cabinet Office**
- CASE STUDY**
- 15:05 **Updating your business continuity programme to reflect the evolving world around and within your organisation**
- Embedding business continuity as a core component of business activity - keeping plans fluid and ensuring consistent engagement with staff
 - Continually maintaining critical partnerships with the police and local authorities - how?
 - Putting in place and maintaining the right systems to ensure availability of information at all times
- Norman Russell**, Director
Russell Security Consultants
Ex City of London Supt and ex Corporate Head of Security, **Barclays**
- 15:35 **Attack on Glasgow International Airport: Returning to business as usual**
- Planning for the worst, hoping for the best!
 - Highlighting the key business recovery issues
 - How we got the airport fully functioning in 23 hours & 59 minutes after the incident
 - Multi-agency partnership working
 - Lessons learnt, both good and bad
- Gillies Crichton**, Head of HSE Compliance
Glasgow Airport
- CASE STUDY**
- 16:05 **Panel discussion and debate**
- 16:30 **Closing remarks**
- Close of Day 1

To register - www.ifsec.co.uk/conference

DAY 2

Tuesday 12 May 2009

CORPORATE SECURITY MANAGEMENT

Chair for Day 2: **Bill Wyllie**, Chairman, **The Security Institute**

MODULE B1

Security Management in a Recession

With security budgets being tightened, organisations are becoming increasingly vulnerable. This module will provide practical guidance to help security managers overcome increasing restrictions and maintain a secure environment.

MODULE B2

Employee Security

Protecting both your organisation from the people you employ, and your staff from the organisation - this module will tackle the ever complex dynamics of employee security. With practical advice on screening procedures in the recruitment process and also how to protect your staff in harmful situations at home and abroad.

MODULE B3

Data & E-Security

The intangible assets of an organisation are increasingly under threat, with more businesses operating on a digital platform, e-crime and online fraud becoming readily sophisticated - examine the threats faced and take away new solutions to combat them.

B1 Security Management in a Recession

09:00 to 11:00

09:00 **Opening remarks from the Chair**

09:05 **Practical risk management in a turbulent world**

- Our turbulent world - what does this mean for the economy, the environment and employment?
- Risk sanity in a climate of panic - what does this mean for security?
- How practical risk management and skills development can improve profits in a recession

Steve Fowler, Chief Executive

The Institute of Risk Management

09:35 **Desperate times, desperate measures - Sourcing new solutions to tackle an increase in employee crime**

- Creating best practice preventative procedures to minimise employee theft
- Developing a zero tolerance culture - punishment vs. reward
- Maximising the use of technology to detect and deter

Dean Jenkins, Security Manager
Westfield's Shopping Centres

10:05 **Managing security on a limited budget to maintain optimum levels of protection**

- Security on a shoe-string budget: Taking a fresh approach to protecting your organisation
- Developing a more security conscious culture - everyone needs to pitch in
- Upgrading and maintaining security systems on a tightening budget - what to prioritise?

Ian Johnson, Security Consultancies Chairman
BSIA

10:35 **Panel discussion and debate**

11:00 **Closing remarks**

Refreshments and networking

B2 Employee Security

11:30 to 13:30

11:30 **Opening remarks from the Chair**

11:35 **Developing an employee screening programme that complies with standards and legislation**

- Understanding how far vetting investigations can go before infringing civil liberties
- Ensuring compliance when using 3rd parties and sub-contractors
- Increasing communication across industry sectors to improve vigilance

Chris Brogan, Managing Director
Security International Ltd

12:05 **Improving staff protection in vulnerable working environments**

- Optimising physical protection measures to manage risks on staff from threatening clients/customers/patients
- Training staff to be able to diffuse hostile situations
- Utilising technology and building partnerships to reduce emergency assistance waiting time

Mark Whittle, National Security Manager
McDonald's

12:35 **Operating on a global platform: Implementing international security information to ensure a safe working environment for staff**

- Implementing measures based on intelligence in order to secure your staff and your business
- Creating procedures to keep staff safe when travelling overseas
- Educating and training staff to raise their awareness to potential dangers

Dan Hooton, Group Head of Security
Prudential PLC

13:05 **Panel discussion and debate**

13:30 **Closing remarks**

Break to allow for Lunch

B3 Data and E-Security

14:30 to 16:30

Chair: **Richard Bingley**, Executive Director
Security and Policing, **London First**

14:30 **Opening remarks from the Chair**

14:35 **Protecting consumer information in the digital world: Fighting e-crime and fraud**

- Understanding the growing threat of e-crime and how it can damage your business
- Looking at new software that can safeguard your consumers' information
- Educating and training staff on the dangers of new malicious threats

James Gay, Chief Information Security Officer
Travellex

15:05 **Developing a robust data management strategy to maintain the protection of sensitive data**

- Maintaining company protocols and systems
- Training staff and raising awareness of the potential dangers and threats
- Reacting quickly to losses of data through business continuity programmes

William Beer, Information Security Head
PricewaterhouseCoopers

15:35 **Protecting your organisation against corporate espionage**

- Developing measures to ensure that your data is safe and protected
- Educating and training staff on the dangers of travelling abroad with sensitive data

16:05 **Panel discussion and debate**

16:30 **Closing remarks**

Close of Day 2

Book 3 modules or more for great savings

DAY 3

Wednesday 13 May 2009

MODULE C1 IP Integration and Convergence

With an increasing push towards IP integration, no security manager can ignore what this means. With independent and qualified advice, this module will help you navigate the pitfalls and challenges associated with IP implementation, and ensure you develop the optimum solution for your specific requirements.

MODULE C2 Interoperability and Compatibility

A look into the future of security systems and how you can combine them to work together. This module will explain the advantages of interoperability while also showing large scale use and how you take advantage of the opportunities offered by this step-change.

MODULE C3 Cutting-Edge Technology

With tighter budgets in uncertain times, choosing the right systems in the future will be critical. Technical experts explain the future of security systems, the next generation technology innovations, and where you should be investing your money.

TECHNOLOGICAL INNOVATION IN PRACTICE

Chair for Day 3: **Alex Carmichael**, Director of Technical Services, **BSIA**

C1 IP Integration and Convergence

09:00
to
11:00

- 09:00 **Opening remarks from the Chair**
- 09:05 **IP or not IP – why make the investment?**
- Understanding wider business benefits of IP CCTV
 - Knowing what you want from your system and deciding whether IP is for you
 - Demonstrating return of investment
- David Morse**, Principal
Jade Stream Consulting
ex CCTV section Chair, **BSIA**
- 09:35 **Understanding and overcoming the technical complexities of IP**
- Understanding what IP technology is and how it works
 - Explaining technical jargon – a guide for non-IT specialists
 - Examining the technical obstacles and how they can be overcome
- Rod Allen**, Storage Technology and
Richard Evans, Smart Security, **IBM**
- 10:05 **Integrating CCTV, Access Control and alarms to create a more efficient and effective security system**
- Designing and developing the right system for your organisation
 - Exploring the pitfalls and challenges of implementation and sharing lessons
 - A look at 2 UK case studies of integration
 - Future trends in integrated security systems
- David Ella**, Chief Technology Officer
Group 4 Technology
- 10:35 **Panel discussion and debate**
- 11:00 **Closing remarks**
- Refreshments and networking**

CASE STUDY

C2 Interoperability and Compatibility

11:30
to
13:30

- 11:30 **Opening remarks from the Chair**
- 11:35 **Advantages of interoperable systems and meeting interoperability challenges with global standardisation**
- How interoperability between vendors' products will simplify installation processes and offer wider industry benefits
 - Exploring the benefits for the end-user: Greater freedom when selecting equipment, more cost effective solutions, enhanced flexibility in system design
 - What does it take to achieve interoperability on a global, rapidly developing market?
- Jonas Andersson**, Chairman
ONVIF
- 12:05 **Looking at interoperability derived from network based systems in action in the US and within multi-national enterprises**
- Why is it important to insist on open-architecture and standards-based solutions?
 - Creating systems that are scalable and retro-fit friendly
 - Achieving seamless integration using commercial off the shelf methods
 - Producing long-term return on investment
- John Convy**, Technology Alliance Manager
Cisco Physical Security
- 12:35 **Establishing a 2-5 year plan to incrementally develop a comprehensive security system**
- Prioritising fundamental security needs
 - Allowing for long-term growth and system upgrades
 - Building successful supplier relationships to drive continuous improvement
- Robert H Scott III**, Executive Director,
Security Solutions, **Intergraph Corporation**
Security Government and Infrastructure
Division, USA
- 13:05 **Panel discussion and debate**
- 13:30 **Closing remarks**

CASE STUDY

Break to allow for Lunch

C3 Cutting-Edge Technology

14:30
to
16:30

- 14:30 **Opening remarks from the Chair**
- 14:35 **Exploring the next generation of security systems**
- Investigating new technologies and trends in technology development
 - To what extent is surveillance video useful beyond security purposes?
 - Managing video surveillance in society
- Emma Shaw**, Co-Director
The Security Institute
Managing Director, **Esoteric**
- 15:05 **Optimising the use of video analytics in the UK: Exploring the latest innovations with the Home offices Image Library for Intelligent Detection Systems (i-LIDS)**
- Developing video analytics event detection to help policing and counter terrorist operations
 - Creating partnerships and performance standards to oversee an overall increase in the standards of video analytics
- A member of the Home Office Scientific Development Branch**
- 15:35 **Enhancing access control systems through the implementation of biometrics**
- Exploring the range of biometric devices to install into access systems
 - Determining the suitability of new biometric devices
 - Understanding how biometrics can eliminate the need for electronic cards and improve health and safety
 - Investigating how solutions can be tailored and integrated to current systems
- Kevin Franklin**, Director
Border Transformation Group, Home Office
- 16:05 **Panel discussion and debate**
- 16:30 **Closing remarks**
- Close of Conference**

About the IFSEC Conference 2009

The IFSEC Conference 2009, located at the NEC Birmingham has been designed to provide high-level discussion and debate for all those responsible for security. The modular structure allows you maximum flexibility by letting you pick and mix specific topics that you want to learn about. Our conference team have researched each topic in-depth, and recruited speakers who are renowned to be experts in their respective fields. Each module will give you high-level insights and lively Q&A sessions with niche networking opportunities with your industry peers who are tackling the same issues as you. The IFSEC Conference 2009 is an essential forum to tackle the most pressing security issues today.

The meeting place for the security industry

The IFSEC security exhibition is the world's largest security event and is regarded as the meeting place for the security industry. IFSEC 2008 saw 30,257 end-users, installers and decision makers come together from 125 different countries, and IFSEC 2009 in Birmingham will prove to be even bigger and better.

IFSEC2009

While you're at the conference, make sure you visit the exhibition – conference delegates are eligible for FREE entry. Find out more at www.ifsec.co.uk
